THE INTELLIGENT FIFTH WHEEL . . .

Sanibel

by PRIME TIME Mfg.

. . . THE INTELLIGENT CHOICE

North America’s Favorite RV Company!
Prime Time Manufacturing is proud to offer Sanibel — a luxury fifth wheel built to stand unequivocally on its own with a level of intelligence that far exceeds the status quo. Our objective for Sanibel is simple: to outperform by every measure and to invoke an experience that anticipates and satisfies your every need with thoughtful and intelligent design. From its well-designed, spacious interior, to its modern amenities and extra creature comforts, the Sanibel is your home away from home.

Within minutes of entering, Sanibel transforms you. The interior is crafted around comfort, sight, and convenience. Modern cabinetry, residential appointments, and rich textures create a sophisticated space of warmth and elegance. Fabrics are specially treated to provide the softest touch and breathability for comfort in heat or cold. Every element of Sanibel will create a personal connection with the user that focuses on enjoyment and satisfaction.
When choosing lighting for Sanibel, we took the same uncompromising approach to intelligent design. For instance, the “Stay Cool” LED lights found at the critical seating areas offer both a stunning presence and smarter thinking. Along with lower energy consumption and longer life, the LEDs emit significantly less heat, helping to maximize your comfort both day and night.
The Intelligent Kitchen!

The Intelligent Kitchen is symbolic of the genius behind Sanibel’s inspiration. Work spaces and storage areas have been carefully designed and positioned for instinctive reach and use. Premium components have been selected for long term durability. An advanced appliance package will indulge your residential desires while brilliant cabinet doors and drawers made from Native American Cherry Wood will welcome you with handsome looks. The Intelligent Kitchen, like each and every detail of the Sanibel, has been examined and questioned to ultimately provide a single result — the highest level of owner satisfaction.
All bedrooms are NOT created equal. LED lights, "Quiet Cool" ducted air conditioning, and extra storage details, make the Sanibel bedroom an Intelligent choice.

The expansive interior of the Sanibel was astutely designed to adapt its volume to your needs. A quick examination under the king size bed will expose a massive storage area that is up to 300% larger. Shoe storage in the wardrobe, six large vanity drawers, and multiple overhead cabinets are additional examples of intelligent space utilization. However, the creation of space was also a priority with Sanibel. That’s why you will find extra “convenience inches” in the bed slide and large “hidden” drawers recessed into the front wall. Our designers even added radius corners to the Denver Mattress® to assist in traffic flow.

ETERNABOND® Construction

Sanibel is built with Prime Time’s ETERNABOND® Construction Technology. Every wall, floor and slide-out roof is made up of welded aluminum framework that is then laminated together in order to build a stronger, longer lasting Recreational Vehicle!
Sanibel extends intelligent design to all parts of the fifth wheel including how the holding tanks are heated. Each tank is equipped with oversized 12 Volt heating pads for direct heat application. Every tank is then wrapped with Radiant Shield Technology (R-38) to help spread the heat over the tank surface while protecting it from cold exterior temperatures. This intelligent design ensures that ALL of your holding tanks are adequately protected while also ensuring that ALL of the heat from your furnace stays INSIDE your Sanibel to maximize your comfort. Unlike forced air applications, customers also appreciate that you can activate the heat pads during transit for additional protection.

**UVW (Unloaded Vehicle Weight)** is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit’s axles and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. *Estimated Average based on standard build optional equipment.

**CCC (Cargo Carrying Capacity)** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. **Estimated average based on standard build optional equipment.**

ADDITIONAL SPECIFICATIONS:

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.
